

Appeal for Relief in Bhubaneswar

An unprecedented super cyclone Fani hit Orissa on May 3, 2019 and has spared no one. Among the most severely affected are the people living in the informal settlements. Their homes have been damaged, tin and asbestos roof blown off, walls broken and all belongings buried under the debris. Households with elderly persons, chronically ill, expectant women and person with disability are challenged in more ways than one.

Fani has left a trail of devastation and we urge each person to extend all possible support. We appeal to one and all to come forward and do their bit to provide timely relief to the people living in slums of Bhubaneswar.

Those who would like to contribute in kind, you can drop in your contribution in any one of the following addresses and the same will be shared with the needy.
